

ANGLE FLANGE

DESCRIPTION:

An Angle Flange is a flange base that allows the pipe to point at an angle from the base. Two screws are used to secure the base and pipe together for a firm connection. The base has two pre-drilled holes to allow for screws to secure the fitting to the surface of the project.

FEATURES:

- Hot-Dipped Galvanized coating for corrosion resistance
- Iron construction for durable performance
- Easy installation and removal, no permanent connections
- No special tools needed
- Use an Allen Wrench for connections
- Able to operate in temperatures ranging from -20°C to 300°C

DIMENSIONAL DATA:

PART #	SIZING	INSTALLATION SCREW (IN X MM)	A (Total Height)	B (Total Width)	C (Insert Depth)	D (Base Length)	E (Angle)	F (Screw Hole Diameter)	G	FITS PIPE OD (IN)	WEIGHT (LBS)
675-206HC	1-1/4in	3/8 x 12.7	3.86	5.51	3.46	3.54	3°-11°	0.57		1.660	2.34

CERTIFICATIONS & SAFETY:

- Materials meets ASTM A-197 Standard
- Not for Plumbing Applications
- Not for Scaffolding Applications
- Made to fit with SteelTek Pipe

California Prop 65 Warning:

This product contains chemicals including lead known to the State of California to cause cancer and birth defects or other reproductive harm. Wash hands after use.
